from exercising common sense? You can't do it. As the old rhyme runs: The man's a fool who tries by force or skill: To turn the current of a woman's will: For it she will, she well, you may depend on't Aud if she won't she won't, so there's an end on't."

Common sense tells a woman that wh Common sense tells a woman that whis she's sick she needs a doctor.
Common sense tells a woman that disease the first question is not of man woman, but of recognized medical abilit.
Common sense applied to advertisemen which invite women to "write to a woman because she is a woman and understand women," will show the women so appeale to, that it's no use to write to any woman about disease unless that woman is physician.

physician.

Common sense used in the reading of advertisements will discover that no clais is made in them to a physician's knowledge or diploma. And that is not became the claim would be morally culpable as lie, but because it would be legally put ishable as a frand. The law permits you masquerade as a doctor in an advertishment just so long as you don't actual ment, just so long as you don't actually claim to be a doctor, or put M. D. after your name. That's why the advertisement is worded "write to a woman" instead of write to a doctor.

Common sense has brought more than balka million women, afficient with some

balf-a-million women, afflicted with a form of female disease, to Dr. R. V. P. form of female disease, to 19. K. V Freich as one of the most expert physicians in the United States in the treatment of female diseases. Dr. Pierce is a specialist. He has given more than thirty years of active practice to the treatment of female diseases. Dr. Pierce is not a "physician" be courtesy. He is a physician regularly grad yearly empowered to practice any

courtesy. He is a physician regularly grad-uated, legally empowered to practice and with thirty years of experience in the treat-ment of diseases of women, which he has made his specialty.

The offer of free consultation by letter made by Dr. Pierce is a real offer, an honest offer. It is an offer backed by a medical institution, with a world-wide reputation, a staff of nearly a score of regularly grad-uated physicians, a practice which reaches every state in the Union and a record of more than half-a-million women treated and ninety-eight out of every hundred perfectly cured.

Write to a doctor. That's the first thing. Write to a doctor. That's the next thing. The woman's doctor, is Dr. R. V. Pierce, of the Invalids' Hotel, Buffalo, N. Y.

morning, and all the zon attendants took a vacation to laugh. The elephant sneezes only about once in five years. When he sneezes, it is an omen of prosperity, indicating abundant crops and great commercial activity. The phenomenon itself forms an interesting spectacle. This morning everything was quiet in the zoo when somebody shouted to Lecturer Rollins:

All the attendants deserted their posts and ran to look. Jolly had drawn up his sides until his back was hump ed. His tall was stiffly horizonfal. Hi mouth was open, and his eyes w shut, while great tears the size of p nuts rolled down his leathery fac There was a great drawing up of th sides, a long continued convulsion, plosion like the report of the Boer car non "Long Tom" at Ladysmith. Half a bucket of water shot out in a stream toward the monkeys' cage, while th elephant's legs trembled as he prepar ed for a second sneeze. There was a rumbling like that of an earthquak and a volcanic crack. All the animal set up a roar. Dewey's cat jumper down on the back of the goat, and ev ery monkey screamed shrilly. The quagga brayed, and the kangaroo barked. The leopards snarled, and Prince Tiny Mite nearly tumbled off his plat form. Jolly had been known to sneez only twice before since the director. General Bosfock, had owned him.

What Is Khakif

What is khaki? is a question put by The Tailor and Cutter, which evident ly is not pleased with the new uniform of the British soldier who has "gone south." Khaki simply describes a color and not a class of material and, according to our contemporary, is asse clated with "vulgarity and dirtiness."

The word is not to be found in Johnson, Webster or Nuttali, but The Encyclopedic Dictionary gives it, and its meaning there is: "An earthy or gray clay color used to dye the uniform Indian soldiers and sepoys. A sect of Brahmins called khaki because they apply the ashes of cow dung to their dress and persons." The Greek dictionary gives us kan

kaa, dirt; the Welsh vocabulary, the German, the Spanish, even the Maori has the same word spelled a little differently, it is true, but in every cas the meaning is the same. It is of th earth, earthy-dirt, of the dirtiest kind that is the meaning of the word while has come to be looked upon as er blematical of British patriotism.

A Big Bequest to Paris.

The city of Paris has just received a splendid legacy-the largest, in fact, that has ever been left to it. It amounts to 5,000,000 francs and is bequeathed by Mile. Marie Genevieve Tanies, who herself had inherited the money from Dr. Dubrell. The legacy is to be devoted to the establishment of three institutions, an orphanage and a school of architectural design in the eighth arrondissement of Paris and the rest to such public or private works as the municipal council may deem advisable.-London Chronicle.

FREDERICKSBURG, YA

Blood Troubles:

Old Sores, As the blood contains all the elements necessary to sustain life, it is important that it be kept free of all impurities, or it becomes a source of disease, poisoning instead of nourishing the body, and loss of health is sure to follow. Some poisons enter the blood from without, through the skin by absorption, or inoculation; others from within, as when waste products accumulate in the system and ferment, allowing disease germs to develop and be taken into the circulation. While all blood troubles have one common origin, each has some peculiarity to distinguish it from the other. Contagious Blood Poison, Scrofula, Cancer, Rheumatism, Eczema and other blood diseases can be distinguished by a certain sore, ulcer, eruption or inflammation appearing on the skin. Every blood disease shows sooner or later on the outside and on the weakest part of the body, or where it finds the least resistance. Many mistake the sore or outward sign for the real disease, and attempt a cure by the use of salves, liniments and other external applications. Valuable time is lost and no permanent benefit derived from such treatment. Rheumatism,

Cancer,

Scrofula,

BLOOD TROUBLES REQUIRE BLOOD REMEDIES; the poison must be completely and perma-

cently eradicated — the blood reinforced, purified and cleansed, or the disease goes deeper and saps the very life. Mercury, sotash and arsenic, the treatment usually prescribed in this class of diseases, are violent poisons, even when taken in small loses — never cure, but do much harm by adding another poison to the already overburdened, diseased blood. S. S. S. Nature's own remedy, made of roots and herbs, attacks the disease in the blood, antidotes and forces out all impurities, makes weak, thin blood rich, strong and healthy, and at the same time builds up the general health. S. S. is the only purely vegetable blood purifier known, and the only one that can reach deep-seated blood troubles. A record of 50 years of successful cures proves it to be a reliable, unfailing specific for all blood and skin troubles.

Froe Medical Treatment.—Our Medical Department is in charge of silled physicians, who have made blood and skin diseases a life study, so if you have intagious Blood Poison, Cancer, Scrofula, Rheumatism, Eczema, an Old Sore or Ulcer, by for advice about your case. All correspondence is conducted in strictest configurations.

Contagious Blood Poison, Cancer, Scrofula, Rheumatism, Eczema, an Old Sore or Ulcer or any similar blood trouble, write them fully for advice about your case.
